***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 9+ are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 9 is replete with indefinite and terms lacking a positive antecedent. For example, the “vertical frame components”, the “unfolded members” lacks positive antecedents. Applicant previously recited “vertical components” and “unfolded positions” which makes subsequent recitations very unclear and indefinite. Further sometimes vertical components are recited and then at other time vertical frame components are recited: there is no clear distinction between the two which renders the claim language indefinite and unclear.

***Election/Restrictions***

Newly submitted claims 18-21 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The method could be used with a shoring device having limitations over and above those recited in the article or apparatus claims.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 18-21 have been withdrawn from

consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

***Allowable Subject Matter***

Claim 16 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 22-26 are allowable over the prior art of record.

Indication of allowable subject matter for claims 9-15 and 17 is held in abeyance until the 35 USC 112 problems have been cleared or the claim has been amended.

***Response to Arguments***

Applicant's arguments with respect to claims 9-15, 17, 22-26 have been considered but are moot in view of the new ground(s) of rejection and the indication of allowable subject matter.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 3635

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
